

Code of Conduct

Pine Plains Central School District

~~2018-2019~~ 2019-2020 DRAFT

DISTRICT CODE OF CONDUCT

INTRODUCTION

The Pine Plains Central School District is committed to maintaining high standards of education for students in the schools. Because the District believes that order and discipline are essential to being educated effectively, the District is also committed to creating and maintaining high behavioral standards and expectations. An orderly educational environment requires that everyone in the school community play a role in contributing to an effective environment. It also requires the development and implementation of a Code of Conduct that clearly defines individual responsibilities, describes unacceptable behavior, and provides for appropriate disciplinary options and responses.

The District believes that order and discipline must be a shared responsibility between school, home and community. This Code of Conduct was developed in collaboration with student, teacher, administrator and parent organizations, school safety personnel and other Board of Education approved school personnel. Finally, it is our belief that, to be effective, such a code must:

- identify, recognize and emphasize acceptable behavior;
- identify, recognize and prevent unacceptable behavior;
- promote self-discipline;
- consider the welfare of the individual as well as that of the school community as a whole;
- promote a close working relationship between parents/guardians and the school staff,
- distinguish between minor and serious offenses, as well as between first time and repeated offenses;
- provide disciplinary responses that are appropriate to the misbehavior;
- outline procedures to ensure that it is administered in a way that is fair, firm, reasonable, and consistent;
- encourage a high regard for every person's right to reasonable hearing procedures and due process when accused of misconduct;
- comply with the provisions of federal, state and local laws, as well as the guidelines and directives of the New York State Department of Education and the Board of Regents.

A school's primary concern in establishing a Code of Conduct is to enable our young people to become responsible, respectful and caring citizens within the school and community settings. The Board of Education is responsible for ensuring that essential regulations are established and adequate discipline is maintained in the operation of the schools to effectively promote safety, as well as the social and educational

growth of the students. Administrative regulations are developed and enforced by the school administration and staff.

The parent/guardian is expected to assume primary responsibility for control of his or her child. The parent/guardian may be called upon to actively cooperate with the school in providing the necessary structure to promote his or her child's social and educational growth. To this end, a high degree of parent-school communication will be fostered by the school.

Disciplinary measures available to the administration of each school building include conferences, detention, in-school suspension, out-of-school suspension and administrative hearings with the designated hearing officer. Administrative hearings can result in out-of-school suspensions of more than five days and, in particularly serious cases, a student may be permanently suspended from school.

STUDENT BILL OF RIGHTS AND RESPONSIBILITIES

The Pine Plains Central School District believes in the right of each child, between the ages of 5 and 21 years or until the child receives a high school diploma, whichever comes first, to receive a free and appropriate education. All students in this state between the ages of 6 and the school year through which he or she becomes 16 are required by law to regularly attend school, either in the public schools, non-public schools that are approved for equivalency of instruction by the appropriate school authorities, or in the home in accordance with the Regulations of the Commissioner of Education.

The right to a free and appropriate public school education extends to all students, including those with disabilities. However, this right is not unconditional. As long as due process of law requirements are met, a student may be removed from the classroom, suspended temporarily or suspended permanently from school. Only students within the compulsory education ages (age 6 through the school year in which the student turns 16) are entitled to alternative, equivalent instruction following suspension.

RIGHTS OF STUDENTS

Education in a free society demands that students be aware of their rights and learn to exercise them responsibly. To this end, students have a right

- to be provided with an education that is intellectually challenging and relevant to demands of the 21st century;
- to learn in an environment free from interruption, harassment, discrimination, intimidation and fear;
- to participate in district activities on an equal basis regardless of race, color, creed, national origin, religion, gender, disability or sexual orientation.
- to be informed of all school rules;
- to be guided by a discipline policy which is fairly and consistently implemented.

In addition, students in this District are afforded the following rights:

1. **Student Expression** - Students shall be allowed the opportunity for the free expression of ideas consistent with rights established by the federal and state constitutions. However, a student's freedom is subject to limitation in that the constitutional protections will not extend to libelous, slanderous, vulgar, lewd, indecent or obscene words or images or to words or images which by their very use incite others to damage property or physically injure persons. Furthermore, speech which materially and substantially disrupts the work and discipline of the school may be subject to limitation.

2. **Symbolic Expression** - Students, in light of constitutionally protected free speech rights, may wear political buttons, arm bands or badges of symbolic expression so long as the same conform to the limits set forth herein under "school newspaper" and "dress code".

3. **Student Activities** - All pupils shall enjoy equal access to the extent of their capabilities for participation in the various extra-curricular and co-curricular activities sponsored by the School District. The privilege of participating in such activities shall be conditioned upon appropriate conduct as established by the student code of conduct and any rules promulgated specifically for participation in extra and/or co-curricular activities.

4. **Student Government** - Students are encouraged to participate in the various student governmental bodies which have been or may be established in our schools. It shall be the duty of the student governmental body to establish reasonable standards for qualification of candidates to serve in offices of the government. Elections for student government shall be conducted in accordance with the principles of our democracy and elected student representatives shall work with the faculty, administration and student body in identifying cooperatively those areas of appropriate student responsibility. All student governmental bodies shall have a faculty advisor and shall be organized pursuant to a specific written constitution which the students shall participate in formulating.

5. **Student Clubs and Other Student Organizations** - The District encourages students to participate in curriculum related extra-curricular activity clubs and/or organizations. To the extent that the District authorizes meetings of non-curriculum related clubs or organizations, the same shall be subject to the constitution of the student government and shall be conducted in accordance with any applicable federal or state law, as well as Board of Education policy or regulations.

6. Privacy Rights [Search and Seizure] - Students in attendance in our public schools are protected against illegal or unreasonable personal searches or seizures of their property by both the federal and state constitutions. In light of these protections, no student's person or property shall be searched for illegal substances or materials unless the school authorities conducting the search have reasonable suspicion to do so. Lockers and desks assigned to students may be subject to inspection at any time by school officials since such places are not the property of the student, but rather are owned by the School District and shared with the student.

7. Pregnant Students - During pregnancy and the period of pregnancy related disability which follows childbirth, a student shall be entitled to home instruction, upon request. Pregnant students who desire to attend their regularly scheduled classes prior to the time of childbirth may do so to the extent that their physician approves of such attendance.

8. Student Grievances and Complaints - If a student has a grievance or a complaint about a school-related matter, a school employee or other school official, s/he may submit it, in writing, to the Principal of the school who shall respond within ten (10) school days with a written answer or proposed resolution. Grievances or complaints may be appealed in writing to the Superintendent of Schools if the Principal's answer or proposed resolution is not deemed satisfactory by the student. The Superintendent of Schools shall respond to all grievances and complaints within a reasonable period of time following receipt of the written appeal document.

CONDUCT OF VISITORS

In an effort to maintain a safe and healthy educational environment, all visitors to the District must sign-in at the designated location of the building visited and obtain a visitor pass. Visitors are expected to conduct themselves in a manner that does not disrupt the academic process and in accordance with the law, Board of Education policy, and this Code of Conduct.

REPORTING CODE VIOLATIONS

1. To School District Personnel

All students are expected to promptly report and describe violations of the code of conduct to a teacher, school counselor, the building principal or his or her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report and describe this information immediately to a teacher, the building principal, the principal's designee or the superintendent. Any student who files a false report engages in disruptive behavior under this code.

2. To Local Law Enforcement Agencies

All district staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the code of conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate

disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or his or her designee must notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practicable, but in no event later than the close of business the day the principal or his or her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on the same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the code of conduct and allegedly constituted a crime.

3. To Human Services Agencies

The District will report any violations of the Code of Conduct which constitute a crime when the actor is under the age of 16 to the appropriate human services agencies. When necessary, the District will file a juvenile delinquency petition or a person in need of supervision (PINS) petition in Family Court.

REMOVAL OF A STUDENT FROM THE CLASSROOM

The School District has determined that certain acts of misconduct interfere with instruction and/or the safety and welfare of students and staff. Although some incidents of misconduct may require removal from the classroom or suspension from school, effort will be made to deal with misconduct without removal from the classroom or suspension from school. This is in keeping with the District goal of avoiding consequences that interrupt or interfere with learning. However, no child will be allowed to continue disrupting the instruction of the class or interfering with the safety of the school, its staff, students and visitors.

Teachers shall have the authority to remove a student from their classrooms whenever the student substantially disrupts the educational process or substantially interferes with the teacher's authority over the classroom. "Substantially disruptive" shall mean that the course of instruction has to be discontinued more than momentarily such that it breaks the continuity of the lesson, to address the disruptive conduct of the student. "Substantially interferes" with the teacher's authority over the classroom shall mean that the student has been insubordinate to the teacher in the presence of the class and has failed to obey the teacher's directives to cease and desist (e.g., at least two directives).

A teacher may remove a student for the remainder of the class upon the first event and for two days of class upon the second or third event. Upon the occurrence of a fourth event, a Principal's suspension shall occur.

Notwithstanding the above, in light of circumstances that warrant suspension, a Principal's suspension for substantially disruptive behavior may be implemented in addition to or in lieu of removal of the student from the classroom by the teacher.

Once the teacher determines that the student has been substantially disruptive or substantially interferes with the teacher's authority over the classroom:

- the teacher must confront the student in class (or within 24 hours of removal where the student is unmanageable at the time of initial removal) to inform the student of the reason(s) for the removal;
- prior to removal from the classroom (or within 24 hours of removal where the student presents an ongoing threat of disruption or a continuing danger at the time of removal), the teacher shall inform the student of the basis for the removal and allow the student to informally present his/her version of the relevant events;
- the Building Principal or designee must be notified immediately, in writing, by the teacher of the student's removal from the teacher's class;
- the Building Principal or designee must inform the student's parent of the removal and the reasons therefor within 24 hours of the student's removal;
- upon request, the student and his/her parent must be given an opportunity for an informal conference with the Principal or designee to discuss the reasons for removal. If the student denies the charge(s), the Principal or designee must provide an explanation of the basis for the removal and allow the student and/or his/her parent an opportunity to present the student's version of the relevant events within 48 hours of the student's removal.
- the Principal or designee may not set aside the removal unless s/he finds that the charges against the student are not supported by substantial evidence or the student's removal otherwise violates law or the conduct warrants suspension from school and a suspension will be imposed.
- the Principal's/designee's determination on whether or not to support the teacher's removal of the student shall be made by the close of business on the day succeeding the 48-hour period for the informal Principal's removal conference. The teacher who causes the removal may be required to attend the Principal's conference at the Principal's discretion.

The District shall provide continued educational programming and activities for students who are removed from their classrooms.

An appeal brought by the parent or student over the age of 18 of a Principal's removal decision must be presented to the Superintendent of Schools prior to any further appeal.

STUDENT SUSPENSION PROCESS

The Board of Education, District Superintendent, Superintendent of Schools, a Building Principal or in his/her absence, an acting Building Principal, may suspend a student from school where it is determined that the student:

- is insubordinate or disorderly, or exhibits conduct which endangers the safety, morals, health or welfare of others; or
- exhibits a physical or mental condition(s) which endangers the health, safety or morals of himself/herself or of other students; or
- is removed from a classroom for substantially disrupting the educational process or substantially interfering with the teacher's authority in the classroom four or more times in one semester.

In addition to the statutory grounds for suspension from school for conduct or health condition, students shall also be subject to suspension based upon a violation of the specific disciplinary infractions listed below.

A. Pre-suspension Process

Prior to being suspended from school, the student shall be confronted by a school official empowered to suspend, as referenced above, at which time the evidence upon which the decision to suspend is based shall be stated to the student and the student shall be given the opportunity to explain his/her version of the facts. The student shall also be afforded the right to present other persons to the suspending authority in support of his/her version of the facts. If the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, such confrontation shall occur following suspension, as soon thereafter as is reasonably practicable. In all cases, there shall be no suspension until after the informal Principal's conference, unless waived, as described in paragraph "C", below.

B. Short Term Suspension Process

Prior to a proposed suspension from school for between one and five days by a Building Principal or an acting Principal in the absence of the Building Principal, the student and his/her parent shall be notified, in writing, by personal delivery, express mail or overnight service, and by telephone, if possible, within 24 hours of the decision to propose suspension.

Such written notice shall include a description of the incident(s) resulting in the suspension and shall inform the parent of their right to request an immediate informal conference with the Principal at which the student and/or his/her parent may present the student's version of the event and ask questions of complaining witnesses. Upon such request, an informal conference with the Principal and other parties involved shall be convened as soon as possible, [at which time the evidence, including the witness(es) relied upon by the Principal in making the suspension determination, may be questioned by the parent or guardian.] The right to an informal conference with the Principal shall also extend to a student if 18 years of age or older. The notice and informal conference shall be in the dominant language or mode of communication used by the parent. If the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

Any appeal brought by the parent or student over the age of 18 of a Principal's suspension must be presented to the Superintendent prior to filing any further appeal. The Superintendent shall review the documentary evidence and written arguments of the parties, if any. The Superintendent does not provide the parties with the opportunity either to present evidence not previously in the record or to make arguments in person before the Superintendent. Any further appeals shall first be to the Board of Education and lastly to the Commissioner of Education.

C. The Long-term Suspension Process: Suspension for More than Five Days

Any suspension from school in excess of five school days shall be considered a long-term suspension. Unless there is an agreement between the person requesting the suspension and the parent, a long-term suspension may be done only after the Superintendent of Schools or the Board of Education has conducted a hearing.

When a student is subject to a long-term suspension, a hearing shall be conducted by the Superintendent if the Building Principal, acting Building Principal or the Superintendent has made the original suspension, or before the Board where that body has made the original suspension. The Superintendent of Schools or Board of Education may designate a Hearing Officer to make findings of fact with respect to the charges of infractions under this Code of Conduct, as well as penalty recommendation pursuant to the penalty parameters described herein.

D. Hearing Procedures

Notice of Hearing

In the event of the suspension of a student under the age of 18 years, the notice of suspension will be mailed or delivered to the parent, who shall have a minimum of 48 hours notice of the time and place of the hearing, as well as the nature of the charge(s) and the facts, sufficiently stated so that a proper defense may be placed upon the record on behalf of the student.

In the event of the suspension of a student over the age of 18, the notice, as described above, shall be delivered or mailed to the student, as well as to the student's parent(s), if any. Emancipated minors shall be entitled to the same notice rights as a student beyond the age of 18 years.

All notices of long-term suspension hearings shall contain provisions indicating that the student has the right to be represented by an attorney or lay counsel, that a transcript of the hearing will be prepared (tape recording or stenographic record) and that the student has the right to subpoena witnesses or otherwise present witnesses in his/her defense. The time, date and location of the hearing shall also be prominently set forth in the notice.

If the student is 18 years of age or older, the letter described above will be mailed to the student as well as his/her parent.

The Long-Term Suspension Hearing

The hearing shall be conducted by the Superintendent or a designated Hearing Officer in the event of a suspension by a Building Principal, acting Building Principal; or the Superintendent. The hearing shall be conducted by the Board or its designated Hearing Officer in the event that the suspension originated by Board action.

At the beginning of the hearing, the Hearing Officer shall inform the student and the student's representative(s):

- that the District's and the student's representatives shall have the right to examine and cross-examine witnesses;
- that the student has the privilege against self-incrimination, but that if the student does testify, s/he shall be subject to cross-examination;
- that the District has the burden of proving the charges by a preponderance of the credible evidence;
- that a transcript of the proceedings shall be maintained and made available to the student's representative upon request; and

- that the hearing shall be private or open to the public, as determined by the student's representative.

The person conducting the hearing shall not have intimate knowledge of the details of the charges to assure an impartial, unbiased hearing of the case.

The Hearing Officer shall inform the parties:

- that the case will proceed by having the District present its evidence through witnesses and other evidence first;
- that the District's witnesses shall be subject to cross-examination by the student's representative; and
- that the student will then have the opportunity to present witnesses on his/her behalf, subject to cross-examination by the District's representative.

Following the conclusion of the testimony and the introduction of other evidence matters, the parties shall be afforded the opportunity to present oral arguments to the Hearing Officer indicating the reasons why the charges should be sustained or dismissed.

The Hearing Officer shall then reach findings of fact upon the charges.

In the event that one or more of the charges is sustained, the Hearing Officer shall then entertain statements from the parties regarding the appropriate penalty outcome. In the event that the parent and/or the student, in an appropriate case, have been served with a copy of the student's past disciplinary anecdotal record in a timely fashion (at least 48 hours before the hearing), for consideration at the hearing, such record may be considered by the Hearing Officer in determining an appropriate penalty. The incidents contained within the past anecdotal record shall be subject to proof to the extent that they are denied by the student, as expressed by the student's representative.

The Hearing Officer, upon the conclusion of the portion of the proceedings dealing with penalty determinations, shall make findings of fact and penalty recommendations, if any, to the person or body which designated him/her immediately upon the conclusion of the long-term suspension hearing.

The Superintendent or Board, whichever designated the Hearing Officer, shall make its own findings of fact and penalty decision, by adopting those of the designated Hearing Officer, where applicable, in whole or in part, or by reaching independent findings of fact and penalty determinations. This process shall be concluded within the five school day period from the time of the initial suspension if the student is to be continuously suspended. The decision may be communicated to the student's representative and/or student (where over the age of 18) beyond the 5 school day period in cases where the student has been reinstated to attendance in school pending the final determination on the charges and penalty by the Superintendent or the Board, in cases to be decided by them, respectively.

Alternative Instruction

Pursuant to the Education Law, no student within the compulsory education ages of 16 and the school year in which s/he becomes 16 shall be suspended from school in his/her regularly scheduled classes without being provided alternative equivalent instruction, either in the form of home instruction or instruction in an alternative

setting. Such instruction shall be of an equivalent nature to that provided in the student's regularly scheduled classes. A good faith effort shall be made to provide such alternative instruction immediately.

Appeals Process

The decision of the Superintendent with respect to the findings of fact sustaining charges in a long-term suspension hearing and/or penalty determination shall be subject to appeal [or may be appealed] to the Board of Education. The Board shall review the record of the proceedings before the Superintendent or his/her designated Hearing Officer, including a review of the transcript of the proceedings, documentary evidence and written arguments of the representatives of the respective parties, if any. The Board does not provide the representatives of the respective parties with the opportunity either to present evidence not previously in the record or to make arguments in person before the Board. Any further appeal shall be made to the Commissioner of Education.

In the event that the initial long-term suspension hearing was conducted by the Board or its designated Hearing Officer, or where the Board has ruled on an appeal from a Superintendent's long-term suspension hearing, the matter may be further appealed.

E. Off-Campus Misconduct

A student may be subject to discipline for conduct constituting a crime, or otherwise threatens or disrupts the functioning of the school, which is committed off of school premises or at non-school sponsored activities to the extent that the Superintendent of Schools and/or Board of Education believes that the continued attendance in school of the student would constitute an endangerment to the health, safety, welfare or morals of the student and/or others in our schools.

F. Dress and Grooming

Students are expected to dress and groom themselves in an appropriate manner. Student must be dressed in appropriate clothing and protective equipment as required for physical education classes, participation in athletics, science laboratories and home and careers skills classes.

The following are considered to be inappropriate dress, grooming and appearance and are prohibited in school or at school functions:

- any dress or appearance which constitutes a threat or danger to the health and safety of students (e.g., heavy jewelry or jewelry with spikes which can injure the student or others);
- any dress or appearance which is vulgar, lewd, obscene or indecent or profane or which exposes to sight the private parts of the body (e.g., t-shirts with a phallic symbol and messages consisting of sexual metaphors; see-through garments, extremely plunging necklines);
- any dress or appearance which encourages or advocates the use of illegal drugs, alcohol and/or tobacco;
- any dress or appearance which advocates or encourages other illegal or violent activities;
- any dress or appearance which advocates discrimination or denigrates others based upon race, color, creed, religion, national origin, gender, sexual orientation or

disability;

- the wearing of hats/visors/or hoods in school buildings during instructional hours (unless worn for religious or medical reasons);
- any dress or appearance which constitutes a disruption to the educational process.

G. Computer and Internet Use

The following prohibited use of District-owned computer drives, network facilities and Internet links may give rise to disciplinary action against users of such equipment and/or facilities:

1. E-mail or social media posts originating from the school premises or received at the school premises or whose contents are shared in school, that a student user creates that:

- is lewd, vulgar, obscene, indecent or inappropriate for student recipients of certain ages;
- conveys an imminent threat of violence, including sexual violence, to a specific individual or individuals;
- constitutes a state and/or federal crime;
- is the cause of or a substantial contributing factor to a substantial interference with the orderly functioning of the school(s)
- is intimidating or harassing in nature;
- attributes the text of e-mail to school officials or that the text is school endorsed, unless there is such official endorsement or consent from school officials.

2. Internet use that circumvents access restrictions placed upon the District's computer systems by the Board of Education or its administrative designee(s).

3. Computer and/or Internet use that is not school related or is unauthorized.

4. Permitting the use of a student's computer access code by any other person and such student shall assume responsibility for occurrences in violation of this Code of Conduct that occurs under the student's access code number.

H. Suspension from Transportation Service

Students may be suspended from transportation services for an infraction or infractions listed herein upon the conducting of an informal hearing by the Superintendent of Schools or his/her designee, at which time the student's parent/guardian or other representative shall be allowed to confront the witnesses relied upon by the District in determining the appropriateness of such suspension of service. If such informal hearing is conducted before the Superintendent's designee, the designee shall make a recommendation to the Superintendent as to the action to be taken.

I. Suspension from Extra-Curricular and Co-Curricular Activities, and School Functions

A student may be suspended from participating in extra-curricular or co-curricular activities (including a sports team) for an infraction of any of the provisions herein, for violating a code of conduct issued to participants in the activity by the activity supervisor or for fighting at games. Upon the request of the student's parent/guardian, the Building Principal shall allow the parent/guardian or other representative of the student the right to appear before him/her informally, to discuss the conduct which led to suspension from the activity.

If a student is suspended from school pursuant to §3214 of the Education Law, s/he shall not be permitted to participate in any extra-curricular or co-curricular activities, as well as any other school events or activities which take place on the days of suspension (including intervening weekends).

J. Suspension of Students with Disabilities

In the event that a student has a known disability or when school officials can be deemed to know, in accordance with law, that a student has a disability, the District will first proceed to conduct a §3214 disciplinary proceeding for any suspension of more than five days. The §3214 disciplinary proceeding will be held in two parts, first to determine the student's guilt or innocence on the charges and the second to determine the penalty.

If guilt is determined, before a penalty may be imposed, the following rules shall apply:

Section 504/Title II ADA Disability

Before discipline may be meted out for a student with a disability or suspected disability founded solely under §504 of the Rehabilitation Act of 1973 (hereinafter "§504")/Title II of the Americans with Disabilities Act (hereinafter the "ADA"), the §504 multi-disciplinary committee (hereinafter the "§504 Committee") must make a determination of whether the conduct underlying the charge(s) was a manifestation of the disability.

1. If a nexus is found between the disability and the conduct underlying the charges, the §3214 proceeding must be discontinued and the matter placed under the jurisdiction of the §504 Committee for any further consideration. The §504 Committee must register a referral and bring about an evaluation of a student with a suspected disability or, if the student is already eligible under §504, it must consider possible program modification and disposition on a non-disciplinary basis.

2. If no nexus is found, yet a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. Students whose sole disabilities are founded under §504 and for whom no nexus is found shall be disciplined in the same manner as their non-disabled peers.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made.

The School District must continue to provide a free appropriate public education to students who have been suspended from school as required by the regulations implementing §504 (34 CFR §104 et. seq.) until the end of the school year in which the student reaches the age of 21.

IDEA Disability

Before discipline may be meted out for a student classified or deemed to be known as having a disability under the Individuals with Disabilities Education Act

(hereinafter “IDEA”) [a student with an educational disability], the Committee on Special Education (hereinafter the “CSE”) must make a determination of whether the conduct underlying the charges was a manifestation of the disability:

1. If a nexus is found between the disability and the conduct, the §3214 proceeding must be discontinued (except for weapons, drugs and dangerous behavior) and the matter placed under the jurisdiction of the CSE for any further consideration. The CSE must register a referral and bring about an evaluation in the case of a student who may be deemed to be known as having a disability or, if the student is already classified under IDEA, it must consider possible program modification and disposition on a non-disciplinary basis.

2. If no nexus is found, yet nonetheless a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. The relevant disciplinary procedures applicable to children without disabilities may be applied in the same manner in which they would be applied to children without disabilities, as long as the child continues to receive a free appropriate public education during any such term of suspension.

3. Where no nexus is found and no suspected disability is determined to exist, the matter shall be remanded to the §3214 Hearing Officer for a determination of penalty.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made.

The School District must continue to provide a free appropriate public education to students who have been suspended from school.

Suspensions Beyond Ten (10) School Days

A student with a disability or suspected disability founded solely under §504/ Title II of the ADA may not be suspended for more than 10 school days unless the §504 Committee has conducted a nexus determination and found that the behavior underlying the disciplinary charges were not a manifestation of the student’s disability.

A student classified or deemed to be known as having an educational disability under IDEA may not be suspended for more than 10 school days unless:

1. The CSE has made a determination that the student’s misconduct was not related to the student’s disability;
2. The School District obtains a court order authorizing the suspension;
3. The disciplinary charges involve the carrying of a weapon to school or a school function or the knowing possession, use or sale of illegal drugs at school or a school function;
4. The parent or student 18 years of age or older gives their consent, in writing.

In determining a disciplinary outcome, a §3214 Hearing Officer and/or decision making authority may not consider incidents in the past anecdotal record of a student with a disability under §504/Title II ADA and/or IDEA, or suspected of being a disability unless there has been a negative manifestation determination regarding such incident(s) by the §504 Team or CSE, respectively.

Suspensions for Misconduct Involving Weapons and/or Drugs

A student classified or deemed to be known as having an educational disability under IDEA may be suspended and placed in an interim alternative educational setting, determined by the CSE, for up to forty-five (45) days. If the student carries a weapon to school or a school function, or knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school or a school function, the student may be placed less than 45 days if a nondisabled student would be subject to less time under the same circumstances.

1. In accordance with law, the term “weapon” means “a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2-1/2 inches in length.”

2. In accordance with law, the term “illegal drugs” means controlled substances but not those legally possessed or used under the supervision of a licensed health care professional or other permitted authority under the Federal Controlled Substances Act or under any other provision of Federal law. Controlled substances are drugs and other substances identified under schedules set forth in applicable Federal law provisions.

Before a student is suspended and placed in an interim alternative educational setting for up to 45 days for behavior involving weapons and/or drugs, the CSE must conduct a manifestation determination and a functional behavioral assessment, as well as implement a behavioral intervention plan that addresses the behavior underlying the disciplinary proceeding or review any such pre-existing plan for modification, if necessary.

1. Placement in an interim alternative educational setting as a result of conduct involving weapons and/or drugs is not contingent upon a CSE determination that the misconduct is not related to the student’s disability.

2. It is up to the CSE to determine what would constitute an interim alternative educational setting that would meet the requirements of the student’s IEP and enable the student to participate in the general curriculum (although in another setting).

The exception allowed for the suspension/removal of students with educational disabilities for up to 45 days for conduct involving weapons and/or drugs does not apply to students whose disabilities are founded solely upon §504/Title II ADA.

Such an interim alternative educational setting shall be deemed the student’s “stay put” placement during the pendency of any due process proceedings contesting the interim alternative educational setting for the duration of the interim placement.

Dangerous Students

To continue the suspension of a student classified or deemed to be known as having an educational disability under IDEA for more than 10 school days, the School District may initiate a hearing before a special education impartial hearing officer who can order the placement of the student in an interim alternative setting for up

to 45 days.

1. The CSE must conduct a nexus determination within 10 school days of the initial disciplinary action. Placement in an interim alternative educational setting as a result of dangerous behavior is not contingent upon a CSE determination that the misconduct is not related to the student's disability.

2. It is up to the CSE to determine what would constitute an interim alternative educational setting.

3. The hearing officer may grant such if maintaining the student in the current placement is substantially likely to result in injury to the student and/or others, and the School District has made reasonable efforts to minimize the risk of harm in the current placement. The hearing officer must also consider the appropriateness of the student's current placement and whether the interim alternative educational setting meets all the requirements of the student's IEP, including continued participation in the general curriculum (although in another setting) with an appropriate behavioral component.

Such an interim alternative educational setting shall be deemed the student's "stay put" placement during the pendency of any due process proceedings contesting the interim alternative educational setting for the duration of the interim placement.

Declassified Students

In accordance with law, the CSE must conduct a manifestation determination in the case of a student with an educational disability who has been declassified if the disciplinary matter involves behavioral problems.

K. Disciplinary Measures

The following shall constitute appropriate disciplinary measures authorized by this Code of Conduct:

1. Warnings (oral or written).
2. Detention.
3. Loss of privileges, i.e. recess, library, parking privilege
4. In-school suspension.
5. Suspension from school for up to five (5) school days.
6. Suspension from school in excess of five (5) days.
7. Suspension from school for at least one (1) year for possession of a weapon pursuant to the Gun-Free Schools Act of 1994 (subject to the right of the Superintendent to modify such penalty) or, in the case of a student with a disability whose possession of a weapon is determined not to be related to his/her disability, placement in an interim alternative educational setting for a period of up to forty-five (45) days.
8. Placement in an interim alternative educational setting for a period of up to forty-five (45) days, in the case of a student with a disability whose knowing possession or use of illegal drugs, or sale or solicitation of the sale of a controlled substance at a school or a school function is determined not to be related to his/her disability.
9. Permanent suspension (Expulsion).
